CWDRILL

RESOURCE AND ENVIRONMENTAL POLICY STATEMENT

CW Drilling & Investigation Ltd recognizes the need to protect the environment to allow sustained economic development for the long-term benefit of the community.

The company is committed to ensuring that environmental responsibility is incorporated as part of their normal business practice by:

- Complying with relevant environmental legislation and regulations, and with other requirements to which our organisation subscribes.
- Establishing environmental targets and designate responsibility for achieving them in a co-coordinated and timely manner.
- Training workers in procedures so that we can encourage acceptance of good practice in relationship to environmental policies.
- Conducting internal audit of our site/s on a biannual basis and having a commitment to continual improvement and prevention of pollution.
- Where feasible, reduce waste and the consumption of resources and favor recovery and recycling as opposed to disposal.
- Seeing that practical steps are taken to have in place a contingency plan for environmental emergencies.
- Obtaining approval for any permits or consents required, in a timely and cost-effective manner, having regard to the operational needs of our business.
- Where appropriate make submissions to announced plans or policies of the local authorities.
- Seeking specialist advice when necessary to ensure the best controls in mitigation of environmental health are employed.
- Achieving and maintaining a good public relations image in relationship to environmental issues and display our policy to the public.
- On completion of each drilling program, the disturbed area is to be left clean and tidy, and as close as possible to its original condition.

James Chapman
Managing Director
